## 4.2.0

### PCC Release Newsletter

#### Document Manager

The update that customers have all been waiting for. Document Manager is now enhanced with **uploading PDF documents** to address the field shifting challenges when uploading other document types. Using PDF documents allows you to upload state-specific forms and other forms that cannot be modified. You can add field tags and complete e-Signature fields on PDFs.

- You **can** convert documents to a PDF file type by using Adobe Pro or another applicable program.

#### General Ledger / Accounts Payable

*G/L Trial Balance Report Drill Down:* an Enable Report Drill Down option is added to G/L Trial Balance Report Setup. Enable Report Drill Down provides access to see the transaction details related to the amount. You save time and effort reviewing accounts because the detailed account transaction information is accessible from 1 report:

- Available with Report Output Format of HTML in the facility and in the Management Console.

#### PointClickCare® Pulse

**Pulse** is a secure website PointClickCare provides for an online customer community. In the Pulse you can:

- Join discussions topics and categories to collaborate and share ideas and best practices with other PointClickCare customers.
- Stay informed through information PointClickCare provides such as industry news, regulatory resources, solution highlights, webinars and events.
- Visit Resources > Release to see release newsletters.

# Did You Know?

HyMark Solutions offers a **complimentary utilization review** to uncover opportunities to leverage additional components of the core application that line up with your facilities goals. In addition, to uncover how to more efficiently use the PCC tools you already have, and suggest products that align with your strategic initiative. Your goals are our goals. Let Us Help you.

## Its HOT and You're Hungry

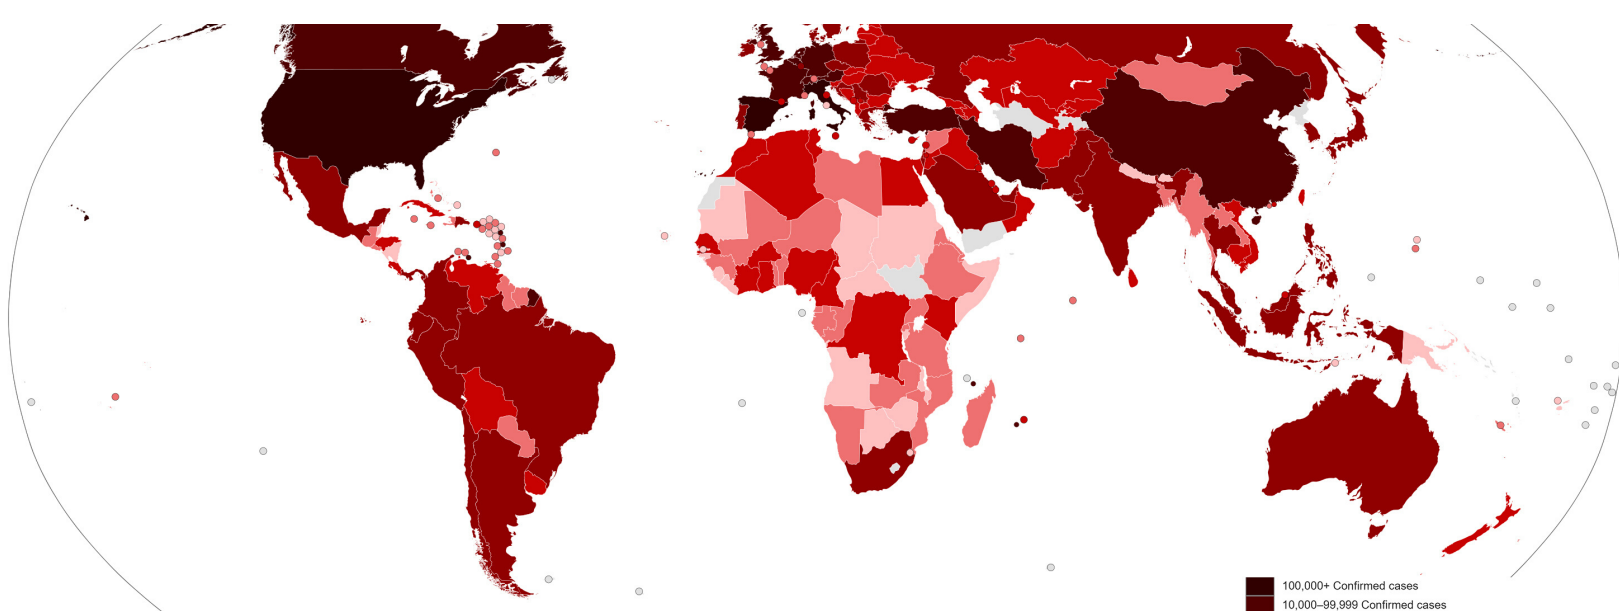

Everyone now a days is low on cash. Why not make a quick and tasty Club Sandwich with ingredients you love and probably have your refrigerator? **You will need:**

- Bread -Toasted (Optional)
- Turkey, Bacon, Ham
- Cheese
- Lettuce
- Tomato
- Mayo
- Guacamole or Avocado slices (Optional)

Instructions: (1) Arrange 2 slices of bread on a cutting board. Spread bread slices with mayonnaise. (2) Top with turkey, tomato slices and cheddar cheese. And place bread on top. (3) Now spread mayonnaise on the topside of the last slice of bread added. (4) Top with ham, bacon and lettuce. (5) Spread mayonnaise or guacamole on the final slice of bread and place on top. (6) Cut sandwich into halves or quarters. **\*\*Before cutting sandwich, insert toothpicks to keep your sandwich from falling apart.\*\* Bon Appetit!**

Our HyMark Solutions team is spread out and located in **4 different states**, so we decided to compare and see where each others states/counties were at with COVID-19 and what phases we are currently in.

## Washington | Yakima

**Still in Phase 1**, WA state adopted a county by county approach. Between May 14-27, Yakima reported 1,000 confirmed cases-1/3 of total number of cases reported since start of pandemic. Yakima county has 430 cases per 100,000-highest number of confirmed cases per capital across the state.New metrics to move to phase 2:

- Fewer than 25 cases per 100,000 people
- Hospitalization rate to flatten or decrease, prepared with enough beds and PPE to handle virus
- Plans for testing, contact tracing, and responding to outbreak in congregate settings

## Oregon | Marion County

**Currently in Phase 1.**

- Restaurants and bars for sit-down service
- Barbers, salons and massage businesses
- Gyms and fitness centersIn-person gatherings: Up to 25 people
- Must wear masks in stores or other indoor public spaces effective 6/24/20

## Montana | Hamilton

**Currently in Phase 2.** Overall, Ravalli County has had **32 cases of COVID-19**. As of June 1, Gov. Steve Bullock advanced the state of Montana to Phase 2 in the re-opening response of COVID-19. Specifically, the *City of Hamilton* has adjusted some of its facilities to match the Phase 2 reopening guidelines. Throughout the emergency the City of Hamilton was *fully operational*. We are just now opening up more to the public with Phase 2 but we are still 100% operational

## Focusing on the Good

Our team has been putting a lot of focus on all the GOOD going on, instead of letting the negative headlines and news be our topic of discussion. What we decided for our July Newsletter is that we want to share with you *what has brought us joy* these past few months and we hope that you take these ideas and run with them as well, so you too can find JOY in the midst of all this uncertainty and quite lonely time.

- House projects / renovations.
- Crafts / new hobbies.
- New Books
- Family movie nights.
- Game nights / chatting with family via video platform.
